Experience

Senior Software Engineer • WP Engine 2022-Present

- Built core architecture for the next generation of the customer-facing API, enabling teams across the org to contribute in parallel and improving performance to handle the demand of agentic workloads.
- Spearheaded a cross-functional initiative across 12 engineering teams to refactor the core application to a Single Page Application (SPA), improving page load performance by 100%.
- Implemented an AI chatbot, driving a 45% reduction in overall support chat volume.
- Maintained a frontend component library, supporting over 50 engineers in daily feature development.
- Lead the frontend Guild to elevate web standards and technical quality.

Senior Software Engineer • Flywheel 2020-2022

- Led an app-wide upgrade of jQuery and Bootstrap across 2 major versions, ensuring full compliance standards.
- Served as primary frontend engineer for Flywheel's flagship product, Growth Suite, authoring the majority of the product's frontend code.
- Collaborated in a fast-paced agile environment to build and ship Growth Suite end-to-end in under 8 months.
- Designed and taught Vue training modules through the company mentorship program to up-skill junior and mid-level developers.
- Oversaw a dedicated technical Jira board outside standard product sprints to prioritize and execute frontend architecture goals.

Web Developer • Speedway Motors 2014-2020

- Developed and maintained the Speedway Motors eCommerce website.
- Optimized the checkout funnel using A/B testing and data analytics, driving a measurable lift in conversion rates.
- Modernized and optimized the CI/CD build pipeline, accelerating release cadence from bi-weekly to daily production deployments.
- Iterated on the company's custom Elasticsearch search engine to improve the clickthrough rate of search results.
- Built a custom shipping quote calculator for the cart page, aggregating data across multiple warehouses and carriers.

Skills

Programming Languages

JavaScript, Typescript, HTML, CSS, Ruby, Go, C#

Libraries & Frameworks

React, Vue, Material UI, Tailwind CSS, Node.js, Ruby on Rails, .NET

Databases

MySQL, PostgreSQL, MongoDB, Redis

Platforms

Google Cloud Platform, AWS, Netlify, Cloudflare, Heroku

Tools

Claude, Neovim, Tmux, Git, Docker, Storybook, Figma

Education

University of Nebraska Lincoln

Bachelor of Science in Computer Science
2016
